About the Programme

All full conference delegates have access to the technical programme of the conference, exhibition and cultural dinner, excluding short course, seminar and field trip. The exhibition is the central place where companies from all disciplines display their products and services. The coffee breaks take place at the Garden Resto and provide excellent networking opportunities in an informal setting.

You may download the full technical programme from this [link](#).

Note (Technical Programme update as of 4 April):

- a. S1301 will be replaced by a keynote presentation “Geological-geophysical mapping of the Kinta Limestone. Malaysia: towards a sustainable management of raw material (limestone) in the cement industry” by Prof. Dr. Michael C. Poppelreiter, South East Asia Carbonate Research Laboratory (SEACaRL)
